

Food Chain cards

Cut out these cards and laminate them to create durable cards to make up food chains in the classroom. Some examples of food chains are:

DIRECTION OF ENERGY DIRECTION OF ENERGY DIRECTION OF ENERGY

(Sunshine is needed by plants and therefore it is the initial source of energy for all these food chains.)

Sparrowhawk

Fox

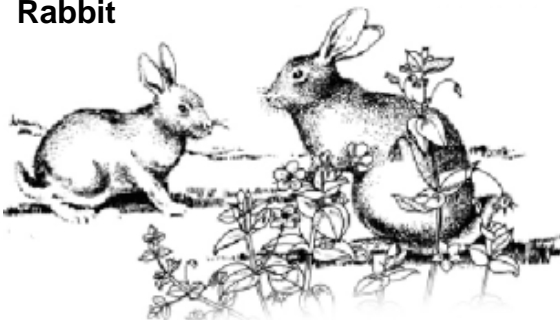

Stoat

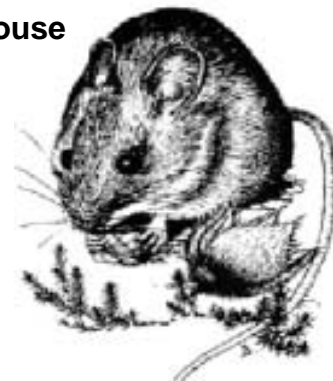

Bank Vole

Rabbit

Woodmouse

Hedgehog

Blue Tit

Butterflies/

Chaffinch

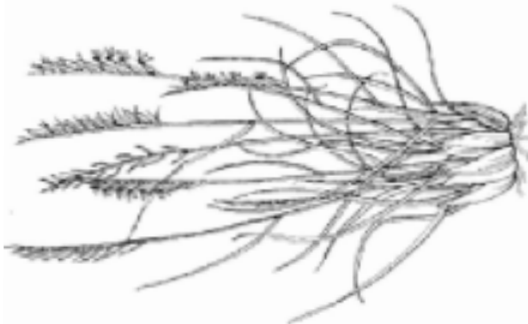

Snail

**Oak Tree and
acorns**

Grass

Wildflowers
