NIDDERDALE Area of Outstanding Natural Beauty

BTCV

Worksheet

Invertebrate Study

1. Using the equipment you have been given to find 3 different invertebrates.
   Use the key to identify them. Fill out the table below to summarise the creature.

	Animal 1	Animal 2	Animal 3
Name of animal			
Major taxonomic group (Class, Order or Phylum)			
Habitat where found			

2. Choose two of the invertebrates you have found. List their main features and comment on how they help the animal to survive in its habitat (this is called 'adaptation').

Animal	Features	How the feature helps the animal to survive in its habitat

3. Now compare the 2 invertebrates. List the similarities they share and differences between them.

Similarities	Differences
.....	.....
.....	.....
.....	.....
.....	.....
.....	.....
.....	.....
.....	.....
.....	.....

When you have finished looking at them, put the creatures back carefully where you found them.
