

Worksheet

Investigating History at Eagle Hall Woods

Our landscape still has remnants of many features of historical interest. Use the maps with your historical and geographical skills to undertake a historical investigation. The photos can help you imagine how the area used to look many years ago. Compare the way it is today to how it was then. Compare the information you can get from a map with that from aerial photographs.

Historical Investigation

1. Location:

Follow the paths around the site and identify the remains/features you can see from the paths.

2. Historical remains/features:

A.

B.

C.

5. Pick one feature. What do you think it was used for?

.....

6. Draw a sketch of the feature:

7. Use the Ordnance Survey Map to find a six figure grid reference for the centre of the two ponds.

Pond one (lower): Pond two (higher):

8. Can you see any evidence to indicate what the ponds are used for today?

.....

.....

9. Find the lead mine entrance stone, can you spot the mistake in the picture?

.....
.....

10. Draw a picture of the entrance stone:

11. What is the woodland area around the old lead mine used for today?

.....
.....
.....
.....

12. Do you think the features should be restored or left as they are? Explain your answer.

.....
